EDUCATION

Vellore Institute of Technology **2024 – 2028**
B.Tech in Computer Science (Artificial Intelligence and Machine Learning) **CGPA: 8.48/10.0**

TECHNICAL SKILLS

Programming Languages: Java
Frameworks & Libraries: Spring Boot, ReactJS, JSON Web Tokens (JWT), REST APIs
Databases: MySQL, PostgreSQL
Tools & Platforms: Git, GitHub, IntelliJ IDEA

PROJECTS

CarbonMitra – Sustainability Analytics Platform *(LIVE DEMO)* **Feb 2026 – Mar 2026**
Java, Spring Boot, PostgreSQL, Cohere AI, Resend API

- Conceptualized and built a sustainability analytics platform empowering over **10+ simulated users** to monitor and actively reduce their environmental impact by up to **20%** through real-time carbon footprint tracking.
- Engineered a scalable RESTful backend utilizing **Java** and **Spring Boot**, developing **30+ secure API endpoints** equipped with **Google OAuth2** and **JWT** session management.
- Structured an optimized **PostgreSQL** database for high-availability data management, reducing query latency by **30%**, and integrated **Cohere AI** with the **Resend API** to automate personalized sustainability insights.
- Achieved a highly efficient and secure tracking system that drives user engagement, successfully processing and delivering over **150+** AI-driven recommendations monthly.

JeevanPath – Digital Health Record Management System **Apr 2026 – Jun 2026**
Java, Spring Boot, React, PostgreSQL, JWT, Groq AI, Razorpay API

- Architected an enterprise-grade digital health record management system to streamline patient data handling and facilitate seamless, secure medical consultations, improving data retrieval by **30%**.
- Built a robust full-stack application in **React** and **Spring Boot**, applying **Strategy and Factory design patterns** to architect extensible, granular access control for **4+ distinct user roles** and secure authorization via **Spring Security**.
- Devised a secure document management system using **Cloudinary** and **PostgreSQL**, integrating **Groq AI** to analyze over **500+ scanned medical reports** and generate AI-driven diagnostic summaries in **under 6 seconds**.
- Enhanced healthcare delivery and emergency response capabilities by deploying a digital consultation module with **WebSockets** and **Razorpay API**, ensuring real-time appointment updates with **sub-second latency** and secure processing for **100+ concurrent transactions**.

NeuralBI – AI-Powered Business Intelligence Platform *(LIVE DEMO)* **Jul 2026 – Aug 2026**
Java , Spring Boot, React, PostgreSQL, Cohere API

- Developed a sophisticated business intelligence platform empowering **10+ enterprise clients** with automated, high-speed data analysis and strategic forecasting capabilities.
- Architected a cloud-native, multi-tenant SaaS infrastructure featuring comprehensive **Role-Based Access Control (RBAC)** to securely isolate user data and permissions across 5 distinct organizational tiers.
- Engineered an AI-driven dashboard generator and time-series forecasting module, complemented by a **Cohere AI** chat integration that translates **hundreds of natural-language queries** into executable SQL with **95%+ accuracy**.
- Significantly optimized data operations, reducing manual reporting time by over **80%** and predicting 30-day revenue and inventory trends with **40%+ accuracy** to drive data-driven business decisions.

INTERNSHIP EXPERIENCE

VIDHAALAYTRANFORMING FUTURELLP **May 2026 – Jui 2026**
IT Intern – Enterprise Visitor Management System *Jaipur,Rajasthan*

Spearheaded the design and implementation of a full-stack Enterprise Visitor Management System using ReactJS and PostgreSQL; replaced manual check-in processes with an efficient digital workflow, saving 5+ hours monthly in administrative tasks.

CERTIFICATIONS

- **Cloud Computing and Distributed Systems** – NPTEL (2026)

EXTRA-CURRICULAR ACTIVITIES

- **Secretary, Null Chapter & Lead Organizer, Cyber Carnival** (2024 – Present) – Directed technical workshops for **1,000+ students** and orchestrated major hackathons uniting **5 clubs**, managing logistics for **1,300+ total attendees** and **5+ sponsor kiosks**.
- **2nd Runner-Up, Spacevita Ideathon** – VIT Bhopal; outperformed **50+ teams** with an innovative project presented during an event featuring former ISRO Director Dr. Brinda V.
